SECTION 1

About This Guide

WaiverPro is a web-based platform for managing healthcare regulatory waiver requests from submission through approval. This manual explains how to navigate the application, submit and track waiver requests, manage facilities and users, and obtain support.

Who should use this guide

This guide is written for **provider-portal users** — facility administrators and staff who prepare, submit, and monitor waiver applications on behalf of their organisation.

Scope

This document describes the provider-facing web application. Every screen, label, and button described here reflects the live product. Figures show live account data; the specific records on your screen will differ from the examples pictured.

CONVENTIONS

Button labels and on-screen text are shown in **bold**. Web addresses and field values are shown in `monospace`. Each section also lists the **URL path** of the screen it describes, relative to the site's base address.

SECTION 2

Accessing WaiverPro — The Landing Page

URL 

Open WaiverPro in your web browser. The public landing page introduces the platform and lists the waiver programs currently available.

Figure 2.1 — The WaiverPro landing page: heading, search bar, and the **Getting Started** button.

Key elements of the landing page:

- **Heading** — “Healthcare Waiver Management”, with the tagline “Streamline your regulatory waiver process from submission to approval”.
- **Search waivers** — the search box (placeholder `Search waivers`) filters the program list by name.
- **All Waiver Programs** — quick-filter buttons name each program, and each published program appears as a card showing its name, description, **Processing Time**, **Waiver Period**, and an eligibility checklist. A program that is not currently open shows a status note (for example, “Expired”, with the dates it was available).
- **Getting Started** — the button in the top-right corner takes you to the sign-in screen.
- **Footer** — links to **Privacy Policy** and **Terms of Service**, with the line “Copyright © 2025 WaiverPro”.

Patient Needs Waiver (PNW) Request Program Flexibility (PF) Request Workforce Shortage Waiver (WSW) Request

Apply when the facility is seeking a waiver of the 2.4 CNA requirement to meet individual patient needs but will provide a minimum of 3.5 direct care service hours. Facilities may only submit one Patient Needs Waiver and/or one Workforce Shortage Waiver application in the same year. If submitting both, only one may be approved.

- ✓ Applies to individualized patient care plan modifications based on clinical needs
- ✓ Documented patient or family request for accommodation required
- ✓ Clinical assessment supporting the modification must be on file
- ✓ Interdisciplinary team agreement and approval is required

Apply when the facility is seeking program flexibility to regulations. The request must include justification for the program flexibility, adequate description of the alternative concept, and documentation supporting that patient care will not be compromised. The facility may request program flexibility that is intended to be emergency or routine. An approved program flexibility request is for a limited term with a start and an end date. Facilities may submit more than one application as needed.

- ✔ Submit a detailed justification demonstrating how the alternative maintains compliance and protects residents
- ✔ All requests must be submitted online through WaiverPRO
- ✔ CDPH will respond within 60 days after all required documentation is received
- ✔ Approved flexibilities include an expiration date and specific terms; may be revoked if conditions are not met

This waiver was available from Dec 29, 2025 to Apr 30, 2026

Apply when the facility is seeking a waiver of the 3.5 direct care service hours requirement and/or the 2.4 CNA hours requirement due to a workforce shortage of available and appropriate health care professionals and direct care givers. Facilities may only submit one Patient Needs Waiver and/or one Workforce Shortage Waiver application in the same year. If submitting both, only one may be approved.

- ✓ Facilities may not staff below 3.2 direct care hours per patient day, even with an approved waiver
- ✓ Only licensed freestanding SNFs (excluding GACH distinct parts, state-owned hospitals, and developmental centers) may apply
- ✓ Application Window: January 1 – April 1 annually; applications will not be accepted outside this timeframe
- ✓ One Workforce Shortage Waiver and/or one Patient Needs Waiver per year; only one may be approved

To begin, click **Getting Started** in the top-right corner of the page.

SECTION 3

Signing In

URL `/login`

The sign-in screen authenticates you into the provider portal.

Figure 3.1 — The sign-in screen.

1. Enter your **Email** (placeholder `m@example.com`).
2. Enter your **Password**. Passwords must be at least **6 characters**.
3. Click **Login**.

If you have forgotten your password, use the **Forgot your password?** link beside the password field to begin recovery.

After a successful sign-in you are taken to the **My Applications** dashboard.

SECTION 4

The Application Workspace & Navigation

URL Shared by all signed-in pages (/dashboard/...)

Once signed in, every page shares a common layout: a fixed sidebar on the left and a header along the top.

Figure 4.1 — The signed-in workspace. The sidebar (left) provides navigation; the header (top) provides search, notifications, and your account menu.

The sidebar

At the top of the sidebar the brand **WaiverPro** appears with the label “Healthcare Waiver Management”, followed by the primary action button **+ New Application**. The navigation items, in order, are:

- **My Applications** — your waiver applications dashboard.
- **Facilities** — facilities you manage or belong to.

- **Action Items** — pending items that require your attention.
- **User Management** — manage the users in your organisation.
- **Announcements** — system and program updates.
- **Settings** — account and preference settings.

Below a **Support** heading, four further items appear: **FAQs**, **Tickets**, **Contact**, and **Take a Tour** (which launches a guided walkthrough of the interface).

The header

- **Search** — a search box for the current page.
- **Notifications** — a bell icon with a badge showing the number of outstanding action items.
- **Account** — your initials appear as an avatar; opening it reveals your email address and a **Logout** button.

TIP

The + **New Application** button is available from the sidebar on every page, so you can start a waiver request at any time.

SECTION 5

My Applications

URL /dashboard/my-applications

The **My Applications** dashboard is your home screen. It lists your waiver applications and summarises them in two charts.

Figure 5.1 – The My Applications dashboard: waiver-type tabs, status filters, the applications table, and the two summary charts.

Filtering the list

Two layers of filters narrow the table, each showing a live count:

- **Waiver-type tabs** — All, Patient Needs Waiver (PNW) Request, Program Flexibility (PF) Request, and Workforce Shortage Waiver (WSW) Request.
- **Status chips** — All Applications, Draft, Submitted, Reopen, In Review, Rejected, Approved, Evaluator Review, Manager Review, Revoked, and Expired.

The applications table

Applications are listed with the columns **Waiver ID**, **Name**, **Facility**, **Type**, **Status**, and **Created on**. Use the **Rows per page** control and the page arrows to page through results.

Summary charts

- **Applications by Type** — a doughnut chart breaking your applications down by waiver type (PNW, PF, WSW).
- **Applications Overview** — a doughnut chart breaking your applications down by status.

SECTION 6

Submitting a New Waiver Application

URL Opens as a panel over the current page (no dedicated URL)

Click **+ New Application** in the sidebar to open the application panel. A progress bar and the step tabs **Waiver Type**, **Select Location**, and **Fill Application** show where you are.

The screenshot shows the 'New Waiver Application' panel in the WaiverPro interface. The panel has a sidebar on the left with navigation options: '+ New Application', 'My Applications', 'Facilities', 'Action Items', 'User Management', 'Announcements', 'Settings', and 'Support' (FAQs, Tickets, Contact, Take a Tour). The main content area is titled 'New Waiver Application' and includes a progress bar with three steps: 'Waiver Type' (active), 'Select Location', and 'Fill Application'. Under 'Select Waiver Type', there are three selectable cards: 'Patient Needs Waiver (PNW) Request', 'Program Flexibility (PF) Request', and 'Workforce Shortage Waiver (WSW) Request'. The WSW card is marked 'Expired' and includes a message: 'This waiver is no longer available. This waiver was available from Dec 29, 2025 to Apr 30, 2026'. A 'Next' button is at the bottom right.

Figure 6.1 — The **New Waiver Application** panel, open at step one, “Select Waiver Type”.

Step 1 — Waiver Type

Under “Select Waiver Type”, choose the waiver request that best matches your needs. Each type — **Patient Needs Waiver (PNW) Request**, **Program Flexibility (PF) Request**, and **Workforce Shortage Waiver (WSW) Request** — appears as a selectable card with a description. A type that is not currently open is marked (for example, “Expired”) and cannot be selected; the panel notes the dates it was available.

Step 2 — Select Location

Choose the facility (and facility type) the request applies to.

Step 3 — Fill Application

Complete the request details — contact number, dates, description, supporting documents, and the required acknowledgement — then submit.

Use **Next** to advance through the steps; you can return to an earlier step to make changes, and submit your completed request on the final step. The **×** button in the top-right corner closes the panel at any time.

SECTION 7

Facilities

URL /dashboard/facilities

The **Facilities** page lists the facilities in your organisation and tracks the status of their waiver applications.

Figure 7.1 – The Facilities page, with status filters, the facilities table, and the Facilities Status Overview.

Filters

A row of status chips filters by application due-date status: **All Facilities**, **Due Soon**, **Upcoming**, **Scheduled**, **Overdue**, and **No Status**. You can further filter by **Role** and **Type**, or search by name.

NOTE

The status chips and the **Status / License Exp Date** columns are part of the **Facilities Status Tracking** feature, which can be turned on or off under **Settings → Features**.

The facilities table

Facilities are listed with the columns **Name**, **Type**, **License Number**, **License Exp Date**, and **Status**. Below the table, the **Facilities Status Overview** summarises the portfolio. Use the paging controls to move through results.

SECTION 8

Action Items

URL `/dashboard/action-items`

The **Action Items** page collects pending items that require your attention.

Figure 8.1 — The Action Items page, with the items table and the status summary chart.

Items are listed with the columns **ID**, **Name**, **Status**, **Priority**, and **Due Date**. Each **Name** links to the relevant record so you can act on it. You can filter the list by **Status** and **Priority** using the controls at the top right.

- **Status** values include **Done** and **In Process**.
- **Priority** values are **High**, **Medium**, and **Low**.
- **Due Date** shows how far an item is overdue or when it is due.

A summary doughnut chart shows the total number of action items broken down by priority. The same outstanding count is reflected by the notification badge in the header.

SECTION 9

User Management

URL `/dashboard/user-management`

The **User Management** page lets organisation administrators view and manage the people who can access WaiverPro on behalf of the organisation.

The screenshot displays the 'User Management' interface. On the left is a sidebar with the 'WaiverPro Healthcare Waiver Management' logo and a '+ New Application' button. Below are links for 'My Applications', 'Facilities', 'Action Items', 'User Management' (highlighted), 'Announcements', 'Settings', and a 'Support' section with 'FAQs', 'Tickets', 'Contact', and 'Take a Tour'. The main area has a 'User Management' title, a search bar, and a user profile 'AD' with a notification bell showing '12'. Two tabs are present: 'Member (4)' and 'Pending Invites (11)'. A table lists members with columns: Name, Email, Associated Facilities, Last Updated, and Actions. The table contains four rows of data. At the bottom right of the table are controls for 'Rows per page' (set to 10) and 'Page 1 of 1' with navigation arrows.

Name	Email	Associated Facilities	Last Updated	Actions
Siva Siva	siddakasivareddy@gmail.com	3	2 months ago	
adam smiths	adam.smith@gmail.com	3	3 months ago	
Siva reddy	sivareddy103@gmail.com	3	4 months ago	
Partner Admin	admin@firstupconsultants.com	6	4 months ago	

Figure 9.1 — The User Management page.

Two tabs separate current **Members** from **Pending Invites**, each showing a count. The table lists each user with the columns **Name**, **Email**, **Associated Facilities**, **Last Updated**, and **Actions** (edit and remove). To add someone, click **Invite User** in the top-right corner. Use the search box to locate a specific user, and the paging controls to move through the list.

SECTION 10

Announcements

URL `/dashboard/announcements`

The **Announcements** page keeps you informed: “Stay up to date with important system and program updates.”

Figure 10.1 — The Announcements page.

Each announcement shows its title, a status badge — **Active**, **Upcoming**, or **Expired** — an optional priority badge (**High**, **Medium**, or **Low**), and its date. Click an announcement to expand and read its full detail. A search box helps you find a specific announcement.

SECTION 11

Support — FAQs, Tickets & Contact

The **Support** section of the sidebar offers three ways to get help.

FAQs

URL `/dashboard/faqs`

The **FAQs** page answers common questions about WaiverPro. Click any question to expand its answer.

Figure 11.1 — The FAQs page.

Support Tickets

URL `/dashboard/tickets`

The **Tickets** page (“Support Tickets — Track and manage your support tickets.”) lists your tickets as cards showing the ticket number, status and priority badges, and the created/updated times. Filter by **Status** and **Priority**, and open any ticket with **View Details**. Click + **New Ticket** to raise one.

Figure 11.2 — The Support Tickets page.

In the **Create New Support Ticket** panel, provide a **Title**, choose the **Related Application**, select a **Category** and **Sub Category**, add a **Description**, attach any files, and click **Create Ticket**.

Figure 11.3 — The Create New Support Ticket panel.

Contact

URL </dashboard/contact>

The **Contact** page (“Get in touch with our support team”) provides a message form and the support team’s direct details.

Support contact details:

- **Email:** support@waiverpro.com
- **Phone:** +1 (555) 123-4567
- **Address:** 123 Healthcare Plaza, Suite 400, New York, NY 10001
- **Business hours:** Monday – Friday, 9:00 AM – 6:00 PM EST (closed weekends)

Messages sent through the form are typically answered within 24 hours during business days.

SECTION 12

Settings

URL `/dashboard/settings`

The **Settings** page (“Manage your account and preferences”) shows your organisation and is organised into four cards.

Figure 12.1 — The Settings page.

- **Organisation** — the organisation your account belongs to is shown at the top of the page.
- **Profile Information** — your first name, last name, email (read-only), and phone number. Click **Save Changes** to update.
- **Notifications** — toggles for **Email Notifications**, **Status Updates**, and **Action Items**.

- **Security** — change your password. A new password must be at least 6 characters long. Click **Change Password** to apply.
- **Features** — toggle experimental or upcoming features: **Facilities Status Tracking** (shows application due dates and status on the Facilities page) and the **FAQ Assistant Chatbot** (off by default).

SECTION 13

Legal — Privacy & Terms

URL </privacy> · </terms>

The **Privacy Policy** and **Terms of Service** are linked from the footer of the landing page and are available without signing in.

Privacy Policy

Last updated: December 2025

1. Introduction

Welcome to WaiverPro ("we," "our," or "us"). We are committed to protecting your privacy and ensuring the security of your personal information. This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you use our waiver and program flexibility application management platform.

By accessing or using WaiverPro, you agree to the collection and use of information in accordance with this policy. If you do not agree with our policies and practices, please do not use our service.

2. Information We Collect

2.1 Personal Information

We collect information that you provide directly to us, including:

- Name, email address, phone number, and contact information
- Facility information, including facility name, address, and type
- Waiver and program flexibility application data
- Documentation and supporting materials uploaded to the platform
- Account credentials and authentication information
- Communication preferences and correspondence

2.2 Automatically Collected Information

When you use WaiverPro, we automatically collect certain information, including:

- Log data: IP address, browser type, operating system, pages visited, and time spent on pages
- Device information: Device identifiers, device type, and mobile network information
- Usage data: How you interact with the platform, features used, and performance metrics

Figure 13.1 — The Privacy Policy page.

Terms of Service

Last updated: December 2025

1. Acceptance of Terms

By accessing or using WaiverPro ("the Service"), you agree to be bound by these Terms of Service ("Terms"). If you disagree with any part of these terms, you may not access the Service.

These Terms constitute a legally binding agreement between you and WaiverPro. If you are using the Service on behalf of an organization, you represent and warrant that you have the authority to bind that organization to these Terms.

2. Description of Service

WaiverPro is a web-based platform designed to facilitate the management, submission, and tracking of healthcare waiver applications and program flexibility requests. The Service provides tools for facilities to:

- Create and submit waiver and program flexibility applications
- Track application status and review progress
- Manage facility information and documentation
- Communicate with regulatory authorities
- Access support resources and documentation

3. User Accounts and Registration

3.1 Account Creation

To use certain features of the Service, you must register for an account. You agree to:

- Provide accurate, current, and complete information during registration
- Maintain and promptly update your account information
- Maintain the security of your account credentials

Figure 13.2 — The Terms of Service page.

Each page is dated “Last updated: December 2025” and provides a **Back to Home** link.

APPENDIX

Appendix — Status Reference

The following values appear throughout WaiverPro.

Waiver application — types & statuses

Waiver types	Application statuses
Patient Needs Waiver (PNW), Program Flexibility (PF), Workforce Shortage Waiver (WSW)	Draft, Submitted, Reopen, In Review, Evaluator Review, Manager Review, Approved, Rejected, Revoked, Expired

Action items

Status	Priority
Done, In Process	High, Medium, Low

Support tickets

Status	Priority
Open, In Progress, Resolved, Closed	High, Medium, Low

Announcements

Status	Meaning
Active	Currently in effect.
Upcoming	Scheduled to take effect.
Expired	No longer in effect.
